

FLEXTILT CHAIR

For superior resident comfort and care.

A caregiver with dark hair, wearing a black t-shirt, is seen from the side, smiling as she assists an elderly man. The man is seated in a blue and grey FlexTilt chair, which has a distinctive slatted back. He is wearing a striped shirt and glasses. They are on a balcony with a black metal railing, looking out at a background of bare trees. The overall tone is warm and professional.

TODAY, WE ARE PROUD TO INTRODUCE THE ***FLEXTILT CHAIR.***

At Med-Mizer, we have decades of experience and knowledge of the post acute care market. We also have a deep understanding of the challenges of being bedbound for the resident and caregiver.

We have built upon these past learnings and are excited to provide customers with an affordable solution, one that is Made in the USA, and from a name they have known to trust – MedMizer. Today, we are proud to introduce the FlexTilt chair.

THE FLEXTILT WILL HELP YOU:

- Provide independence and mobility
- Create comfort with unlimited positioning options
- Improve skin/wound care with pressure relief
- Reduce caregiver injuries and efficiency (reduction in transfers, reduced time in repositioning, etc)
- Reduce cost with an affordable chair solution

Ease of use/operation with unlimited positioning for enhanced comfort
